

Reduced Tire Width

The reduced width of the Agribib® Row Crop passes between valuable crops without plant and root damage.

Reinforced Casing

An extra-strong but super-flexible casing, which offers a large footprint and surprising ride comfort, has excellent durability to carry extra-heavy loads.

Extra-Deep 40° Lugs

Extra-deep lugs oriented at 40° provide impressive traction and excellent directional control.

Additional Lugs and Stabilizing Belts

- Additional lugs promote slow tire wear and long service life under heavy loads at road speeds.
- Stabilizing crown belts reduce lug movement, ensuring smooth even wear.

English Units

Agribib Row Crop Sizes	Equiv. Size	MSPN	Overall Diameter (in)	Loaded Radius (in)	Rolling Circumference (in)	Gross Flat Plate (in ²)	Center-line Tread Depth (32nd")	Max Load @ 25mph (lbs)	Max Pressure @ 25 mph (psi)
