

Multibib™

Wider, More Efficient Choice for Medium and High Horsepower Multi-Purpose Tractors The new Multibib™ radial is the only 65 series tire in North America available with a "D" speed rating, approved for road speeds of up

Tire Fits Standard Rims

Michelin designed the Multibib™ radial to replace standard profile tires without the need to change rims.

Extraordinary Efficiency

The broad flat tread and oversize footprint help deliver exceptional traction, which helps reduce slip, improve production efficiency and reduce fuel consumption.

30% Bigger Footprint

Compared to standard radials, a wider tread and longer sidewall flexing zone give the Multibib™ radial a much

35% Longer Tire Service Life

The Multibib™ radial offers 35% longer tire service life when compared to the Michelin XM™108 radial.

Greater Load Capacity

A larger air chamber and bigger footprint allows for heavier loads with the same or lower air pressures than standard

Exceptional Comfort

An ultra-flexible casing, computer designed lug pattern and low pressures offer the superb comfort and handling that you expect from a Michelin.

* Exceeding the safe, legal limit is neither recommended nor endorsed.

** Footprint and load-capacity comparisons made with reference to Michelin® Agribib® and published data for competitors' standard-profile tires.
