

XZSL® SKID STEER

The First Radial Tire Made Especially For Skid Steer Loaders

This Michelin® radial tire is designed to provide outstanding performance while delivering cost savings for skid-steer and backhoe operations.

Excellent tire life and productivity

This highly puncture resistant, steel-belted radial is designed to provide excellent tire life and outstanding

Exceptional tire life

The tire's deep tread, steel belts and reinforced steel casing help provide the durability needed to maximize uptime.

Excellent operator comfort

Michelin® radial technology helps provide a large and stable footprint that helps dampen shocks over uneven terrain to promote a smooth ride. Continuity of the tread pattern and a wide footprint allow outstanding comfort and precision maneuverability.
