

Featuring Ultraflex™ Technology

A Michelin innovation that allows you to carry the same load at lower pressures, or heavier loads at the same pressure. The new Michelin® Axiobib™ tire is the only tire in the industry consistent with the IF designation recently

New Class of Technology - New Level of Performance

Ultraflex™ Technology creates a 22% larger footprint when compared to standard radials, which provides maximum ground contact, helping to prevent soil compaction and increase productivity.

Improved Sidewall Flexibility

Increased flexion offers greater sidewall flexibility without compromising endurance or service life. The Michelin® Axiobib™ radial is the only tire in the industry consistent with the IF designation recently established by the U.S. Tire and Rim Association.

High Load-Carrying Capacity

20% more load capacity compared to standard tires of the same size, at the same pressure. *

A "D" Speed Rating

Axiobib™ tires are approved for road speeds of up to 40 mph (65 km/h).**

Superb Comfort

Greater sidewall flexibility offers outstanding operator comfort, without compromising endurance or service life.

*Compared to the Michelin® MachXBib® radial

** Exceeding the safe, legal limit is neither recommended nor endorsed.
